To whom it may concern,

15/3/2012

Craftcrete Pty Ltd as a local business has been involved in numerous aspects of concrete works and as such have used Redimix Concrete and are continuing to do so due to their service and quality. They have always been eager to work in with our demands and changing needs.

As a company we have used approximately 2000 cubic metres at the Werris Creek Hospital, 1200 cubic metres at the new Coates Hire Depot, and at the new BOC Gas & Gear Project, along with many driveways, house slabs and paths.

Also our company has used Redimix Concrete for many kilometres of Kerb & Gutter Works in subdivisions all around tamworth and it's districts.

Therefore we have no hesitation in our recommending Redimix Concrete for their friendly and helpful professional services to anyone for any project

Yours Sincerely

Jaimie Craft

Proprietor
