Dear James,

**SPLIT ROCK DAM UPGRADE - STAGE 1 C668
CONCRETE SUPPLY**

In regard to Redimix Supply Contract for the Split Rock Dam Project, John Holland would like to thank Redimix for their Supply of Concrete over the past year.

We appreciate the effort Redimix has made to supply their product within a tight specification and with a 1 hour travel time.

The quality of the concrete was within the tight specification and was given very positive feedback from the client and a third party consultant on site.

We would again like to thank you team for a great effort. Look forward to working with you again.

Yours faithfully

Simon Flannery
Project Manager

The National Code of Practice for the Construction Industry (the Code) and the Australian Government Implementation Guidelines for the National Code of Practice for the Construction Industry, reissued August 2009 (the Guidelines), apply to this project.
