To Whom it May Concern ,

I am writing to recommend the services of the BJB concrete Pty Ltd T/A Redimix Concrete in Tamworth NSW.

United Group Infrastructure engaged the services of Redimix Concrete for the supply of over 8000m3 of readymixed concrete for our Westdale Alliance Project.

Our project required a large quantity of high specification concrete which had to be delivered within tight time constraints and very demanding and exacting tolerances, Redimix met all requirements at every level.

We found them to be extremely professional, always punctual, very flexible and willing to fit in with our moving schedule and most importantly were always compliant with our stringent OHS, environmental and general site regulations.

I have no hesitation in recommending the services of Redimix Concrete for any future project or contract.

Yours Sincerely,

Charles Diamond  
Alliance Manager  
Westdale Alliance
