

# RICHARD CROOKES CONSTRUCTIONS

6 May 2014

Redimix Concrete  
18 – 20 Armstrong Street  
Tamworth NSW 2340

**Attention:** *Mr. James McDonald*

Dear James,

**RE: CONCRETE SUPPLY  
TAMWORTH RURAL REFERRAL HOSPITAL STAGE 2 MAIN WORKS 2  
ACUTE SERVICES BUILDING ('ASB')**

On behalf of the Abigroup Richard Crookes Joint Venture ('ARCJV') project team, I am writing to personally commend your company's efforts throughout the course of construction to date on the new Acute Services Building ('ASB') project.

Redimix Concrete was engaged for the supply of approximately 14,300 cubic metres of ready-mixed concrete over the 18 month construction period. The structure is a 5 storey reinforced concrete structure with a combination of traditional reinforced and post tension ('PT') elements with specific design parameters required for each. Redimix developed trial mixes and completed testing to demonstrate compliance with the Project Specification before commencing supply as part of their Quality Assurance system for the project.

Due to the size of our larger concrete pours, the largest being 470m<sup>3</sup>, it was necessary to commence pours at 4am to avoid placing concrete in the heat of the day. Redimix's willingness to open the plant to accommodate this start time and commitment to providing an uninterrupted service has been vital to the progression of the project to date. During these larger pours, ARCJV was aiming to place 75m<sup>3</sup> of concrete per hour, which Redimix were comfortably able to accommodate from batching through to delivery on site. A Redimix representative, typically James McDonald himself, attends all major concrete pours to oversee supply and promptly resolve any issues should they arise.

ARCJV have been impressed with Redimix's commitment, technical support and level of customer service which has made for a successful, positive and enjoyable project experience to date. I have no hesitation in recommending the services of Redimix for any project.

Yours Sincerely,

---

**TRENT SUTTON**  
Project Manager
